BENEFITS

Positive Distraction

Reducing anxiety & creating a calming environment for patients during procedures & treatments.

Improved Recovery

Numerous studies have shown a positive correlation between biophilic design & patient recovery times.

Reduced Delirium

Helping patients maintain a sense of time & regulating the human body's natural circadian rhythm.

Evokes Memories

Familiar local scenery can help to provide comfort & instill a sense of calm among Dementia & Alzheimer patients.

Reduced fatigue

Creating relaxing, calming, breakout sanctuaries for staff helping them to recharge.

Promotes Productivity

Brighter spaces with captivating imagery succeed in providing inspiration & help to improve staff morale.

MOUNTING

MOUNT TO ANY CEILING

LED Sky Ceiling panels fit seamlessly within a standard lay-in ceiling grid (15 or 24mm). Alternatively, you can surface mount to solid ceilings or cable suspend from them.
