

5800K (Warm White)

2700K (Cool White)

Typical Auto Setting

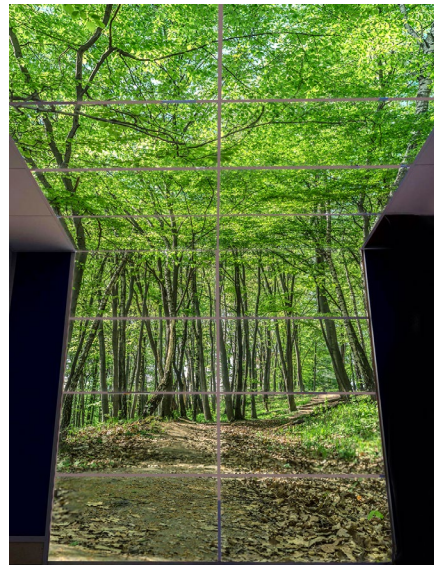

Time	Colour Temp (K)	Time	Colour Temp (K)
00:00	2700K	12:00	5800K
01:00	2700K	13:00	5685K
02:00	2700K	14:00	5318K
03:00	2700K	15:00	4767K
04:00	2700K	16:00	4101K
05:00	2700K	17:00	3412K
06:00	2700K	18:00	2700K
07:00	3412K	19:00	2700K
08:00	4101K	20:00	2700K
09:00	4767K	21:00	2700K
10:00	5318K	22:00	2700K
11:00	5685K	23:00	2700K

The LED Vista range can be supplied with manual wall control that allows the end user to set their preferred colour temperature and lighting level (dimming).

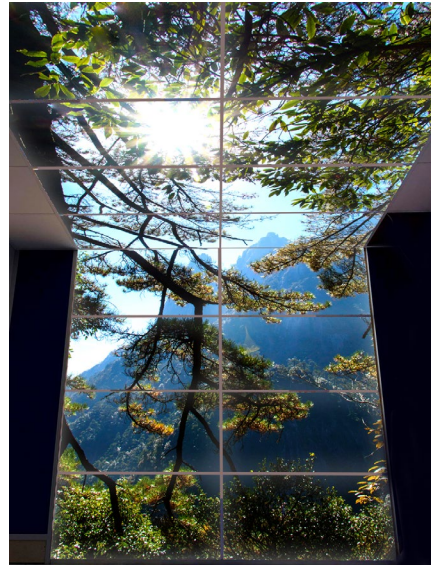

Alternatively, the range can be supplied with an automatic control function that changes the colour temperature based on pre-set times of day (see table). This can be fully customized to suit client preferences.
